MADE IN AMERICA

When quality, deadlines and price are important factors, the Made In America mark is more important than ever in the hospitality industry. Sorrentino Mariani is proud to be an American owned company with each piece of our furniture crafted in the United States.

Our experience has taught us that manufacturing our furniture in America is the most beneficial method for our clients. We are able to more effectively communicate with our clientele and pass the client's instructions to our engineers, craftsmen, delivery personnel and every person at every stage of production, delivery and installation. And since every facet of our operation is in America, our clients also receive responsive customer service, reduced freight costs, competitive pricing, and on-time delivery. Most importantly, our customers receive American craftsmanship.
